# Paymaster

RED STELE RESISTANT

## NEW STRAWBERRY!

Paymaster has proven to be one of the best of the later varieties of strawberries. Its everbearing blood gives it a prolonged picking season. The berries are solid red clear through, very highly flavored, extremely firm, and brightly colored.

Paymaster is a Hybrid that was originated by B. W. Keith of Michigan after 4 years of testing and was selected from among 3000 seedling plants on trial. Our planting stock was purchased direct from Mr. Keith and as we own and control all of the original stock, we offer you a superior strain of plants which cannot be purchased elsewhere.

Paymaster is the one variety that will produce a crop under conditions in which varieties of the Premier or Robinson types would be a total loss. It is absolutely resistant to Red Stele and if you have had root trouble with strawberries as a result of Red Stele, we guarantee that this will be eliminated. It is perfect flowering and a good plant maker.

# BLACKHAWK

## HEAVY-PRODUCING BLACK RASPBERRY

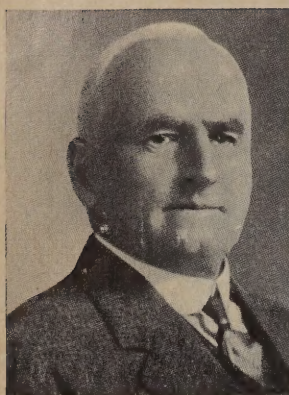

The Blackhawk black raspberry is in our opinion, and this opinion is based on the fact that we have fruited this variety commercially, the finest black raspberry that can be grown today. The berries are extremely large, have a fine jet black color, are firm and do not crumble. The plants which we offer are produced here on our own farm from mother plants bought directly from the Iowa State College where they were introduced. This is a hybrid black raspberry and is the result of years of testing. The plant itself is very easy to grow, is hardy and well adapted to Midwestern raspberry growing. It is an extremely high yielder, and produces its fruit out near the foliage surface for easier picking. It is quite resistant to all diseases, ripening mid-season to late.

## \*Our Personal Visit to Your Home

### \*AN HONEST STATEMENT ABOUT STAHELIN'S QUALITY NURSERY STOCK

With the approach of another spring planting season, it is a great pleasure to send you this new 1959 Catalog and with it, our very good wishes. We take this opportunity to also express our sincere appreciation for your valued patronage.

To serve the best interests of our customers, we continually strive to make our catalog as up-to-date and complete as possible. We have listed the varieties which we consider to be the best and the most profitable to grow, among the old and the new.

Further, despite rising costs for just about everything connected with the nursery business, we are continuing to keep our catalog prices **down**—to do this we have had to eliminate all the "frills". We believe the prices quoted in this catalog are the **LOWEST** possible for the **TOP QUALITY** nursery stock we ship.

We take pride in the fact that every nursery plant and tree we ship is **FRESHLY DUG** (we do not handle storage plants)—and packed to reach you in the best possible growing condition.

We are not in the nursery business solely to make money but derive pleasure in serving you with sincerity, efficiency and honor. By continuing to deal fairly with you, we hope to enjoy your friendship and business in the future.

C. A. Stahelin

## DON'T WAIT TO ORDER

Our customers have been very fine in the past few years in placing their orders early. Please remember that the shipping of strawberry, asparagus and that class of plants, depends entirely upon weather conditions here. **WE POSITIVELY DO NOT SHIP ANY STORAGE PLANTS.** We will endeavor to fill your order as close to the time specified as possible but if excessive rain or cold weather occurs at that time of the year, there may be a slight delay.

## TRANSPORTATION

### Transportation Charges Not Prepaid

Unless otherwise stated in catalog, transportation charges on all stock listed in this catalog are to be paid by the customer, as the weight of nursery stock cannot be determined exactly in advance of shipment.

## TERMS ON C. O. D. ORDERS

We can ship C.O.D. if the order amounts to \$5.00 or more at full catalog price, no discount allowed, but 25c on each dollar must be included with your order as a down payment. If order amounts to \$5.00, send \$1.25 with the order; if \$6.00, send \$1.50, etc. You may inspect express shipments before you pay. (Parcel Post not subject to examination.) If satisfactory, pay the agent the amount due. **No. C.O.D. shipments made after April 25th.**

# SAVE 10% With STAHELIN'S CASH DISCOUNTS

10% discount for January Cash orders. On orders received and postmarked before February 3, 1959, with cash in full, we will allow a 10% discount on all items except bargains, special quotations by mail, or those marked: "No Discount."

## CERTIFICATE OF NURSERY INSPECTION

Michigan State Department of Agriculture—Plant Industry Division No. 839. This is to certify that the nursery stock of Stahelin's Nurseries, Bridgman, Michigan, has been inspected and is apparently free of dangerous insects and dangerously contagious plant diseases. Inspection Fee of \$87.00. Expires September 15, 1959.

Plant Industry Division,  
C. A. Boyer, Chief.

George McIntyre, Director,  
Lansing, Mich.  
July 29, 1958

## STAHELIN'S GUARANTEE

We guarantee first quality stock, exactly as described in our catalog, true to name, government inspected, and to arrive in a live and growing condition. If, however, you are not satisfied we ask that a report be made to us at once or not later than 5 days after arrival of same. If stock is delayed by express we ask that you get a statement from your express agent as to the cause of delay and the condition of the stock on arrival and forward same to us.

The above guarantee is made possible by the fact that all our nursery stock is inspected by authorized state men, that it is free from disease, that it is backed by 41 years of growing experience and that this stock is produced by our propagators who are skilled men with years of experience behind them.

We cannot be held responsible for losses caused by improper planting, care, or unfavorable weather conditions over which we have no control and these factors will be considered when claims are made.

## NOTICE

For approximate shipping charges, refer to the back of our order sheet enclosed with this catalog. Complete schedules and rates, as closely as they can be figured, will be found there.

## FALL SHIPMENTS

We encourage the fall planting of raspberries, trees, etc. because when warm weather comes in the spring your stock is ready to commence growing. However we do **not** recommend the fall planting of **strawberries** unless in the far South. Nursery stock cannot be shipped until it has had some cold weather to harden it up and so **fall shipments usually cannot be made until after October 20.**

NO DISCOUNT ON FALL ORDERS.

## KEEP ALL PAPERS

If necessary to write at any time, be sure and return all papers sent you except planting instructions. All papers pertaining to your order will be returned to you when order is acknowledged. **Do not destroy them!**

# Brilliant

PLANT PAT. NO. 1183

## EVERBEARING STRAWBERRY

**25 PINTS from 25 PLANTS THE FIRST YEAR**

The Brilliant Everbearing variety is outstanding in a great many respects. We know of no other everbearer that can match Brilliant for uniformly large, top quality, bright red berries. The flavor is a mouth-watering, tangy, true-strawberry flavor and it has no equal as regards to freezing qualities or for eating fresh.

In comparison tests, Brilliant has out-produced all other everbearing varieties and it will make a full fruiting row under adverse conditions. The plant has great strength and vigor, and is very easy to grow. If it has plenty of moisture it will continue to bear all summer and fall. It is a perfect flowering variety.

## 20th CENTURY EVERBEARER

The 20th Century that we offer today is not the 20th Century that was introduced several years ago, but is an entirely new hybrid type of berry. Under normal conditions the berry is very large, of a semi-dark red color and has great eye appeal. It is an average plant maker, perfect flowering. We believe this variety will become very popular for jams and jellies due to its fine flavor. Recommended for table use.

## SUPERFECTION

### KING OF THE EVERBEARERS

The Superfection Everbearing strawberry is of Northern Michigan origination and is therefore guaranteed to be hardy. It does well under all climatic conditions and requires no special care. We urge you to try it as it is one of the best of the common everbearing varieties.

### EXCELLENT SHIPPER

Berries are slightly round in shape and have an excellent flavor. Can be shipped long distances without damage as berries are quite firm in texture and do not discolor after picking. Will bear almost continuously from a short time after planting until cold weather arrives.

Jerseybelle

# JERSEYBELLE

**PRODUCES 8000 QUARTS OF BERRIES PER ACRE**

This is one of the latest varieties introduced by the New Jersey experimental station and plants are still very scarce. It originated from a cross of 4 varieties and is a large and vigorous plant but makes enough new plants to make a full matted row. The fruit is large, pointed and shiny—qualities which catch the eye of the shopping homemaker. The Calyx is large and remains green throughout the harvest. The flesh is streaked and dark red when fully ripe and has a good dessert quality. The berry is firm and a good shipper. It ripens later than the Sparkle and should be considered a mid-season variety. It is a good pollenizer and should be tried by every commercial grower.

**PRICES:**

25 for \$1.35  
50 for 2.15

100 for \$3.25  
250 for 6.85

## Giant ROBINSON

**LARGE SIZE—BRILLIANT COLORING**

The Robinson is a variety which we list due to the demand from our customers. The plant is small but produces extremely large fruit at the start of the season. Has a bright green calyx. This large size and brilliant color makes it a desirable market variety. Ripens midseason to late and is perfect flowering.

Robinson

## POCAHONTAS

Since its introduction, Pocahontas has become widely acclaimed as being the best of the new varieties of strawberries that have been offered. The plants are vigorous, very productive, ripens about a week later than Blakemore. Berries are large, a vivid red, glossy with a tough skin and is an excellent shipper. Ideal for freezing as the flavor is tart and good.

**PRICES:**

25 for \$1.35

## TENNESSEE BEAUTY

**VIRUS FREE—EXCELLENT QUALITY—VERY PRODUCTIVE**

The Tennessee Beauty plants which we have were produced from virus free stock and these disease free plants will supply you with planting stock that makes for heavy production. The Tennessee Beauty is fast becoming known as a very desirable variety throughout the Mid-West. It ripens its berries mid-season to late and produces over a long picking season.

One of its fine points is its excellent bearing quality. Berries are of good size and are a bright glossy color that doesn't dull for some time after the berries are picked. It is very firm and is an outstanding profit maker wherever it has been tried.

**PRICES:**

Tennessee Beauty

# New CLUSTER BEAUTY

## NEW EARLY JUNE BEARING STRAWBERRY

Cluster Beauty was originated in Berrien Co., Mich. and has achieved great popularity on the Benton Harbor market because of its early ripening season and its extremely bright red color. It has the longest picking season of any berry that we know of, ripening under normal conditions 2-3 days before Premier but it will continue to produce fruit after Premier is gone. The berry is pointed, of good size and when fully ripened is red throughout the entire berry, making it very desirable for freezing and canning. It is perfect flowering and a good plant maker.

Cluster Beauty

### PRICES

25 for \$1.30	500 for \$ 9.45

100 for 3.20	2000 for 29.00
250 for 5.10	5000 for 62.50

## BLAKEMORE

### An Excellent Shipper

We list this variety for the benefit of our Southern customers. Blakemore is a fine plant maker and its berries are extremely firm. Fruit is pointed, of extremely bright red color, and has a large green Calyx. The mother plants of our Blakemore are virus free. Perfect flowering.

### PRICES:

25 for \$1.30	500 for \$ 9.45
50 for 2.10	1000 for 15.50
100 for 3.20	2000 for 29.00
250 for 5.10	5000 for 62.50

## SPARKLE

### Resistant to Red Stele

Sparkle was introduced several years ago from the New Jersey Experimental Station as a result of a demand for a variety which would be immune or very resistant to all strawberry diseases. Sparkle is just that, as it can be raised where weaker sorts would be entire failures. Its fruit buds are produced above the plant and are perfect flowering. As its name indicates, the berries have a sparkling appearance, making them very attractive. They ripen mid-season and are quite uniform in size.

### PRICES

25 for \$1.30	500 for \$ 9.45

Sparkle

## ARMORE

### One of the Very Best

Armore is a berry which is rapidly becoming very popular in this great strawberry growing section. It is a variety which came to us from the University of Missouri and our plants are from this planting so we know they are the best. It is a perfect flowering variety and produces quite a large size plant. Its ability to withstand freezing weather conditions makes it very desirable for those sections subject to late spring frosts. Berries are extremely large, very firm, and have good color. Where the berry and its qualities are known, it soon commands top market prices. It is one of the few varieties that we raise commercially here for fruit production purposes.

Armore

**FAMOUS**  
For Its  
"FROST-PROOF"  
Qualities

*Popular*  
**PREMIER**

Premier

By means of careful plant selection for a number of years, we have perfected a strain of Premier that we know will produce more plants per acre than any other strain of Premier. Our Premier is adapted to all soil and climatic conditions. The picking season is long, commencing with the first and continuing to produce large size fruit until the late varieties are practically over. Premier is very easily picked, and easily sold because of its large size. Premier is practically immune to late spring frost and if you are located in a section where such trouble occurs, you can be assured of getting a fine crop if you will plant our Premier. This is due to the peculiar plant growth which it makes, almost completely hiding the blossom and protecting it from severe cold. Berry is extremely juicy, yet quite firm, making it an excellent shipper. Comes on the market when there are practically no other strawberries. Fruit is bright showy red with a large calyx. For a big crop of fine fruit in spite of cold weather when plants are in blossom, plant Premier.

**PREMIER PRICES:**

25 for \$1.25		1000 for \$14.95

*Delicious Hardy* **FAIRLAND**

Fairland is another one of the varieties developed by the U. S. Department of Agriculture to combat the Red Stele disease. It is being grown very generally in Berrien County, Michigan—one of the biggest strawberry growing sections of the country—as a market berry, and our growers here make very favorable reports on it. Fairland has proven to be an excellent shipper and does particularly well in the middle and northern states due to its immunity to Red Stele.

Fairland ripens just a few days after Premier, being just as productive as Premier but has a firmer berry. The berries are large, of high quality, good flavor, and an attractive light red color. A fine variety for gardens and one of the best we know of for freezing. It is a good plant maker and we recommend it to you for trial as we know you'll like it.

**PRICES:**

25 for \$1.35	100 for \$3.25	500 for \$ 9.75

Vermilion

# Scarlet

## BEAUTY

### THE WORLD'S GREATEST STRAWBERRY

#### HUGE SIZE, BRIGHT COLOR

The size of Scarlet Beauty is practically indescribable. The plant is peculiar, in as much as it only sends out one fruit stem, but this fruit stem will have from two to three huge berries on every plant. This variety will produce as many or more quarts per acre than Premier. Fruit is outstanding due to its size and coloring. The berry itself is extremely brilliant red in color and has a large bright green calyx. This makes for beautifully appearing berries, as they always look fresh, no matter how long they have been packed. Buyers on the market marvel at the brilliant red color of this variety, coupled with the bright coloring of the calyx, which always make it command a high market price.

#### LATE FRUITING SEASON

Scarlet Beauty commences to ripen about the time Premier is finished. Continues to bear over a long picking season, and this semi-late fruiting brings it on the market at a time when, in most sections, there are no strawberries to be had. We believe that the Scarlet Beauty will produce more huge, first-class berries than any variety that we have ever seen. At least 100 plants should be in every garden in the U.S.A. It's a marvel in size, coloring, and appearance. No other variety has attained such popularity in so short a time.

Scarlet Beauty

#### THRIVES IN POOR SOIL

Due to its plant making ability, the Scarlet Beauty will thrive and produce a crop of berries on rather poor soil. Scarlet Beauty is a perfect flowering variety which requires no pollinizing. The plant is rather small but exceptionally long rooted. It has healthy foliage, is an excellent plant maker, and an immense producer. It should not be planted closer than 24 in. apart. Try to keep your plants two to three inches apart in the picking row as it has a tendency to grow very thick.

## FINE RED RASPBERRIES

### New SEPTEMBER EVERBEARING

The New September Everbearing Raspberry was introduced by the New York State Fruit Testing Association. Its plants are of a very good size, vigorous, and very hardy. Fruit is of excellent quality and when ripened shows no sign of crumbling. One important feature of the New September is that it ripens many days earlier than most other fall-bearing varieties, thus getting a chance to mature its crop before cold weather sets in. In the spring it is very early and will ripen before practically any other sort.

### SUNRISE THE FINEST EARLY RASPBERRY TODAY

An excellent red raspberry, which is recommended very highly. It starts to ripen in Michigan the latter part of June, about two weeks ahead of Latham, and because of its habit of sending up long shoots from the bottom of the cane, which ripen later than the buds at the top, it has an extremely long picking season. About the size of Latham, and a bright red when ripening. Fine textured, juicy; does not crumble, and is very firm. Does not require expert attention to grow. Plants are vigorous and bear heavily. Easy to pick and sell.

# New **EARLY RED** Red Raspberry

**Try This Wonderful New Variety at Reduced Prices**

The New Early Red Raspberry originated at the South Haven Experimental Station and has been commercially tested in this famous raspberry growing section for the past ten years. It is the earliest maturing red raspberry that we know of and as such, commands top prices because it comes on the market before any other red raspberries are ripe.

The fruit is cone shaped and light in color when they commence to ripen but when the berry is fully ripened, it separates from the vine easily. This is important as the berries are easy to pick while firm and the harvesting can be done before they are too soft. From its parentage it has inherited much of the excellent flavor of the old Cuthbert.

The plants are vigorous, hardy, and very productive. The supply is not large and we urge you to plant a few of them as we know they will be a heavy money maker for you.

## PRICES:

## **LATHAM**

### Best Late Red Raspberry

Latham is a large, late ripening, red raspberry that grows on a very stiff cane and comes on the market at a time when practically all other raspberries are gone. It is very productive and is adaptable to all sorts of soil conditions, climates, and locations. Cold weather has no effect on Latham as it originated in Minnesota. A great shipping and canning berry, has a fine color and good flavor.

The plants we offer are of the best quality and carry triple inspection certificates as being disease-free.

Latham

## **WILLAMETTE**

### Giant New Red Raspberry

Willamette is one of the most promising of the new Red Raspberries. It is a very vigorous grower; having about the same ripening season as Latham. The fruit of Willamette is very large, shaped somewhat conical, comes off the vine easily and is a beautiful red color.

### BEST FOR CANNING, PRESERVING

On tests made locally by the leading canners, their report is as follows: "The best looking Red Raspberry that we have tried. It doesn't crumble when canning and does not fade. We wish that we could get a great many tons of them for preserving and canning." If the canners think this of Willamette, it has a great future.

Indian Summer

## **INDIAN SUMMER**

### Everbearing Red Raspberry

A berry that has everything combined to make it an ideal everbearing variety. Bears a large crop early in the spring and another in the fall. Its thimble-shaped berries are borne in large, loose clusters and every berry matures to full size. Has marvelous keeping qualities and is a sensation because of its size and unusual beauty. Fruit has an appetizing red color and is excellent for eating, canning or freezing, and makes delicious jams and jellies. Plants are thrifty growers, hardy, free of any diseases, and enormous producers. A trial planting will convince you.

# BLACK RASPBERRIES

## Sensational BLACKHAWK

### New Heavy-Producing Black Raspberry

We offer the Blackhawk Raspberry for the 2nd time this year. The plants which we offer are produced here on our own farm from mother plants bought directly from the Iowa State College who introduced this great variety. This is a hybrid black raspberry and is the result of years of testing. It is hardy and well adapted to Midwestern raspberry growing. It is an extremely high yielder, producing berries which are firm and do not crumble. The Blackhawk plants are very vigorous and its fruit is produced out near the foliage surface for easier picking. The berries are rich in flavor, being sweet to mildly acid. It is quite resistant to all diseases, ripening mid-season to late.

#### PRICES—1 Year No. 1 Plants

25 for \$3.95	100 for \$11.95	500 for \$41.00
50 for 6.95	250 for 22.75	1000 for 75.00

### LOGAN EARLY SWEET BLACK RASPBERRY

An Ohio origination. Logan ripens seven to ten days ahead of Cumberland, which allows the grower to get on the market ahead of other varieties, giving him an opportunity to make some real money. Produces immense crops of jet black berries, as large as Cumberland. Does not crumble, and the last picking looks as nice as the first. Stands severe weather conditions. A great deal of its present popularity is due to its "disease-free qualities." Of high dessert quality and fine for canning.

#### PRICES—1 YEAR NO. 1 PLANTS

25 for \$2.50	100 for \$ 7.95	500 for \$29.35
50 for 4.15	250 for 16.85	1000 for 53.35

25 for \$5.80	100 for 16.50	500 for 65.00

Blackhawk

### CUMBERLAND KING OF THE BLACKCAPS

Most popular black raspberry today because of its great size, beauty, firmness and productiveness. The fruit is the largest of the black raspberry family, often measuring almost an inch in diameter. Cumberland is very hardy, will stand severe drought and cold weather conditions well, without injury. It sets a great many berries, and should be heavily trimmed to get best results. Wonderful canning berry, makes delicious pies and jelly. Commands top market prices. Almost disease free and very popular because of this quality. Able to grow on almost any soil that is not wet.

#### PRICES—1 Year No. 1 Plants

25 for \$2.75	100 for \$ 8.25	500 for \$34.50
50 for 4.95	250 for 19.85	1000 for 59.50

## MORRISON

### THE GIANT BLACK RASPBERRY

This variety originated as a chance seedling in Northern Ohio and has attracted a great deal of attention by commercial growers because of its abnormal size. Ripens somewhat later than Cumberland and has a very dark glossy color. Berries are firm in texture, high in quality, and have a delicious flavor. Excellent for canning and freezing. The plant is an extra strong grower, produces enormous crops, and is quite free from the common black raspberry diseases. Plants are not plentiful and price is somewhat higher than commonly asked for the old varieties, but we believe a trial planting will prove that they are worth more.

#### PRICES—1 Year No. 1 Plants

25 for \$3.00	100 for \$ 9.00
50 for 5.50	500 for 37.50
	1000 for \$65.00

# Giant Cultivated BLUEBERRIES

We list all of the best varieties of Blueberries. With over 50 acres of bearing plants, we can judge those that are the finest. We offer below the kinds that our experience has shown to be profitable and the fastest growing. These marvelous berries can be grown only on soil that is moist and has a slight acid reaction. Our supply of the newer varieties is limited and they cannot be furnished in large quantities. Free cultural instructions upon request.

## BERKLEY Midseason

Berkley is perhaps the largest berry that we have and is a light blue color, carrying a lot of bloom. A very vigorous grower and a variety which is worthy of consideration for commercial planting anywhere. **PRICE: 2 for \$2.40; 5 for \$5.50; 10 for \$10.50. Available in 2 yr. size only.**

## COVILLE Latest to Ripen

Ripens after Rubel, and Jersey. Large berries of good blue color and superior quality. Remain firm even when fully ripe and do not drop until picked. Thrifty plants. **PRICE: 2 for \$2.40; 5 for \$5.50; 10 for \$10.50. Available in 2 yr. size only.**

## EARLIBLUE First to Ripen

This is an excellent variety—one of the very first to ripen. It is a good grower and we recommend it for test. **PRICE: \$1.75 each; 5 for \$7.50; 10 for \$14.50. Available in 2 yr. size only.**

## BLUE CROP Midseason

Midseason ripening variety of excellent size. Has made a wonderful record on tests here in Michigan. **PRICE: \$1.75 each; 5 for \$7.50; 10 for \$14.50. Available in 2 yr. size only.**

## RANCOCAS Early

The Rancocas variety of blueberry is of excellent quality, and a very good shipper. The bush does not grow as tall as Rubel, but it produces a lot of fruit over a long picking season. Always commands a good price because it is early. **PRICED BELOW.**

## STANLEY Early Midseason

A tall vigorous grower. Produces very large berries of wonderful quality. Bush has thick shiny leaves. A good variety as companion to Rubel and Jersey. Vigorous plants, large berries, very productive. **PRICED BELOW.**

## JERSEY Midseason

In our opinion, Jersey is superior to some of the other blueberries. The bush is very upright, vigorous, and a large producer. Fruit is enormous, very attractive, firm and sweet. **PRICED BELOW.**

## RUBEL Late

This variety was one of the first to be offered to the public and is still one of the best. It is a parent of many of the present hybrids. Bush is upright, vigorous, hardy, and a heavy bearer of large fruit. **PRICED BELOW.**

### BLUEBERRY PRICES ON RANCOCAS, STANLEY, JERSEY, AND RUBEL.

Always set two plants for best results.

	2	5	10	50	100
2 Yr. 8-12" total height	\$1.75	\$3.95	\$ 7.75	\$30.00	\$ 58.00
3 Yr. 12-18" total height	2.70	5.40	9.85	40.00	75.00
4 Yr. 18-24" ready to bear	3.95	8.85	16.95	75.00	135.00

We can make special prices on blueberries in lots of 500 or more. Set 5 ft. by 10 ft. it requires 872 plants to set one acre. Only small sizes available. 4 yr. and 5 to 8 yr. plants must be shipped by express as they are too heavy for parcel post.

## Almost A Full Crop In One Year With Strong BEARING AGE PLANTS

Do you want to pick blueberries this year and get almost a full crop next year? Plant our large BEARING AGE PLANTS. Full of fruit buds now. 24-30 in. in height and from 5 to 8 years old. RUBEL, RANCOCAS and JERSEY only. **Price \$2.95 each; 2 for \$5.60; 5 for \$13.50; 10 for \$24.50.**

### BARGAIN NO. 6

Four fine blueberry plants which will soon bear enormous crops. Your choice of Rubel, Rancocas or Jersey.

3—3yr. old plants **\$6.15**

1—4 yr. old plant **6**

NET, NO DISCOUNT

## Luscious BLACKBERRIES

Again this year we offer two of the newer varieties of blackberries. We believe the three following varieties have sufficient merit for more extensive market and home use.

### NEW BAILEY

Plants are vigorous and produce a large amount of fruit. Berries are larger than average, quite firm, subacid and of good quality. Is immune to the so called "Sterility" in the black varieties. Ripens about one week later than Hedrick. **PRICES, 1 YR. NO. 1 PLANTS: 12 for \$2.95; 25 for \$5.70; 50 for \$10.75; 100 for \$16.95; 250 for \$36.50; 500 for \$68.50.**

### NEW HEDRICK

Introduced from the New York Experimental Station. Berries are larger than Eldorado, without core, flavor subacid. Plants are very vigorous, extremely productive and hardy. Ripens in Michigan about the middle of July. **PRICES, 1 YR. NO. 1 PLANTS: 12 for \$2.95; 25 for \$5.70; 50 for \$10.75; 100 for \$16.95; 250 for \$36.50; 500 for \$68.50.**

## New EBONY KING BLACKBERRY

First to ripen. Very hardy and has never winter killed in Mich. Each plant is guaranteed to bear a large crop of extremely fine fruit which is very sweet and has very little core. Due to the scarcity of blackberries in all of the regions growing same, the fruit commands high prices and offers growers an opportunity to make some easy money. Plant a few in your garden and you will have plenty of fruit from these few plants. **PRICES, 1 YR. NO. 1 PLANTS: 12 for \$3.50; 25 for \$6.75; 50 for \$12.75; 100 for \$17.50; 250 for \$38.50.**

# Tree Type **EVERBEARING BLACKBERRY**

A real sensation! The Tree Type Everbearing Blackberry is a tremendous producer of good sized, sweet luscious berries—jet black in color. This Blackberry, due to its everbearing ability, will often have berries that are ripening on it when freezing weather comes in the fall. The bearing ability of this plant is so great that you can hardly believe that a single plant would have the ability to produce such a crop.

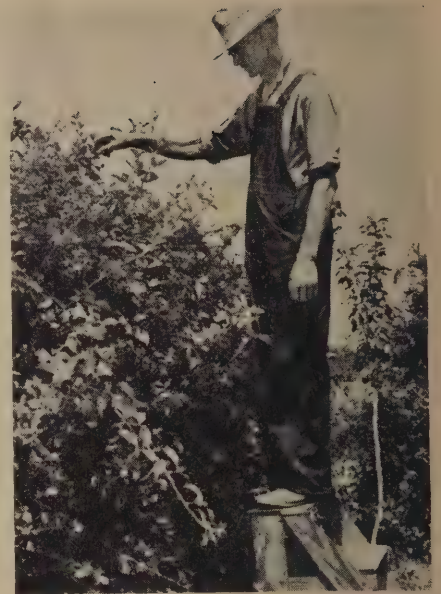

This unusual berry has been gaining in popularity the past few years and the income derived from these plants is such that those who have tried them are planning now to make additional plantings. The berry is very vigorous and the size of the mature plant is such that they should be set about 8 feet apart to enable the person picking the berries to get completely around the plant. It is advisable to prune back the tips of the young growth so as to add to the convenience of picking.

Plants should have ample moisture for greatest production.

## **PRICES:**

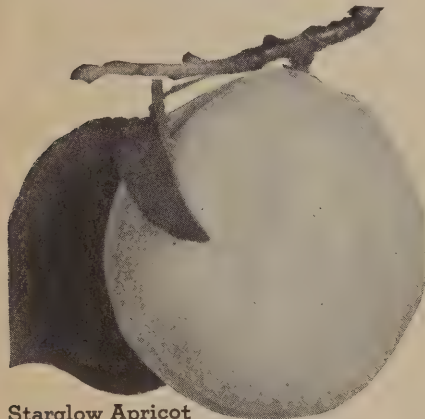

Plants with 12 inch tops: 95c each; 3 for \$2.70; 6 for \$5.10; 12 for \$9.60

# *Starglow* **APRICOT**

**VERY HARDY,  
ORIGINATING IN MICHIGAN**

This marvelous apricot originated in central Michigan and is of very large size, brilliant yellow color, marvelous flavor and absolutely freestone. Especially hardy and late flowering, which is very desirable in all apricots. Starglow apricots will produce a crop of fruit for you where most of the other apricots will fail. Self-pollinizing. **PRICE:** 3-4 ft. trees, \$1.75 each; 3 for \$4.80; 10 for \$14.25. 4½ ft. and up, \$2.15 each; 3 for \$5.55; 10 for \$15.95.

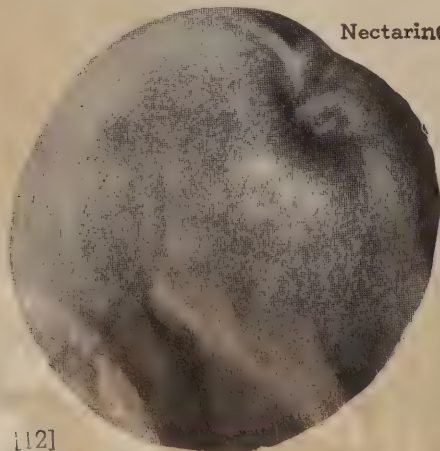

Starglow Apricot

# **NECTARINE**

(Fuzzless Peach)

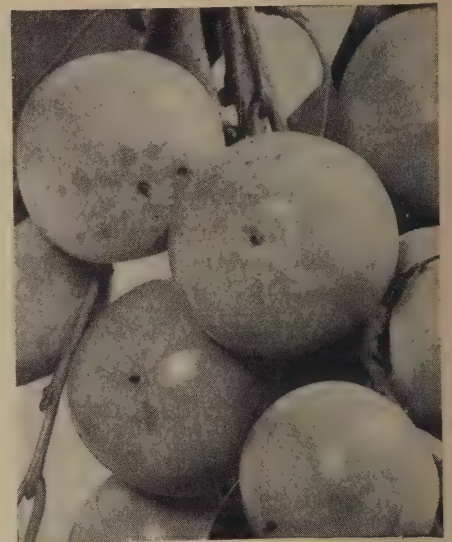

One of the most delicious of all fruits. Smooth skin of bright golden color with slightly red cheek. Hardy as peaches and require same culture. Tree is vigorous and bears young. **PRICES:** 3-4 ft. trees, \$1.39 each; 2 for \$2.69; 5 for \$6.50. Plant two or more for pollination.

Nectarine

# **HARDY PERSIMMON**

The bright golden colored fruit of the Hardy Persimmon is delicious. Fruit is usually harvested after the frosts. It has a rich, spicy flavor and is especially prized for making jellies and preserves. Tree is very ornamental and quite hardy. Bears at an early age. **PRICES:** 2-3 ft. field grown trees, \$1.25 each; 2 for \$2.35; 5 for \$4.95.

Hardy Persimmon

# **ORANGE QUINCE**

This is a dwarf growing tree which should be planted about 12-14 feet apart. Orange Quince is hardy in practically all sections. Its foliage is very leathery, disease resistant and quite dark in appearance. The fruit is as large as a good sized apple, golden yellow in color. This variety is valued very highly for preserving or jelly making. **PRICES:** 3-4 ft. trees each \$2.10; 2 for \$3.90; 5 for \$8.95.

Orange Quince

# **EVERBEARING FIG**

Have Sweet, Juicy Figs in Your Garden. Our Everbearing Fig is well adapted to growing in the north. Will produce either in the field or any container in which it is planted. Fruit is good size, sweet, firm, excellent for preserving or eating. **PRICES:** 2-3 ft. trees, \$1.35 each; 2 for \$2.45.

*Plant  
New Exciting*

## DWARF FRUIT TREES

The DWARF TREE is one of the new and better things for the garden but they are being planted commercially all over the country where fruit is grown. While you are waiting for standard trees to bear, these little trees will pay for themselves. They produce the same fruit, although they will bear usually from a week to ten days earlier than the same variety on a

standard tree. Tests have been made on these trees, planting them like raspberries, very close in the rows, but these of course are experimental plots. The trees we list are all budded on special malling understock which is very sturdy and vigorous and produce a nice root system. Trees when fully developed will probably average around 10 ft. in height. They will produce from 3 to 4 bushels of fruit per season and they will do well on all types of soil where water does not stand any length of time. The supply of these trees is still limited but we do have quite a demand for them in commercial quantities so if you are interested in 50 or 100 trees, we would be glad to quote you by mail.

### BARGAIN NO. 9

## DWARF APPLE TREES

Our Dwarf Apple trees are hardy and productive, often bearing more fruit than standard trees of proportionate size. They are easy to prune and spray and the fruit is easily picked. We offer the following varieties: RED DELICIOUS, RED NORTHERN SPY, YELLOW TRANSPARENT, McINTOSH, AND JONATHAN.

PRICES: 3-4 ft. trees, \$2.95 each; 2 for \$5.80; 5 for \$12.50; 10 for \$22.50; 25 for \$53.75.

Commercial growers write us if interested in larger quantities.

## DWARF PEAR TREES

The trees are small but the pears are big! These beautiful heavy-bearing trees are offered in three varieties—BARTLETT, FLEMISH BEAUTY and CLAPP'S FAVORITE. These varieties are the best all-purpose pears today. Foliage and size make them ideal for landscape work. Perfect for the small yard. PRICES: 2-3 ft. trees, \$1.95 each; 2 for \$3.45; 5 for \$8.50. 3-4 ft. trees, \$2.75 each; 2 for \$4.95; 5 for \$11.25.

See Back Cover

**DWARF  
PEACHES**

## DWARF SAPA PLUM

Red-fleshed Plum. Delicious, sweet, and juicy. Medium size. Small freestone. Produces in coldest climates. Fruit is firm, good for canning and shipping. Plant two for best results. PRICE: 3-4 ft. trees each \$1.85; 2 for \$3.60; 4 for \$6.80.

Above is a Dwarf Delicious the 3rd season after planting. These trees bear soon, have large crop of good-sized fruit.

## NORTH STAR DWARF CHERRY

We offer the New North Star Dwarf Cherry as a variety that will succeed farther north than any other cherry of equal size and quality, except Meteor. The color is at first a bright red but gradually changes to a dark glistening mahogany. Fruit is juicy, tender and meaty. The stone is small and easily removed. The fruit ripening season is early, starting about the first of July in Michigan. The tree is small but productive and is self-fertile. This is a sour cherry. PRICE: 2½-3 ft. trees, \$2.85 each. Two or more trees at \$2.70 each.

## DWARF OKA CHERRY-PLUM

Larger than Sweet Cherries, the fruit is dark purplish red all the way through. This hardy Hybrid Cherry-Plum bears a full crop even in coldest climates where regular Sweet Cherries do not thrive. Sweet and delicious, fresh or canned. Small stone. Plant two for best results. Price: 2½ to 3 ft. trees each \$1.85, 2 for \$3.60; 4 for \$6.80.

*The Finest That Money Can Buy*

# PEACH TREES

Halehaven

## HALEHAVEN

**Early—Excellent Shipper, Canner**

Ripens about a week before Elberta but colors red long before it is ripe. Is round in shape, has a very sweet flavor, and is one of the greatest shipping and canning peaches ever introduced. It was originated in Michigan and is therefore hardy. Self pollenizing. One of our most popular peaches here. **PRICED BELOW.**

## Sullivan's EARLY ELBERTA

**New—Larger—Better—Ripens 7 to 10 Days Before Old Elberta—Sells Fast**

This new type Elberta peach is very hardy and is rapidly replacing the standard Elberta because it ripens 7 to 10 days earlier. It is identical in shape, color, and flavor, but is slightly larger in size. Excellent shipper. **PRICED BELOW.**

## GOLDEN JUBILEE

**Sweet and Juicy—Frost Resistant**

Very early. Excellent for commercial plantings. The tree is extremely hardy, producing fruit when other varieties are frozen. Fruit is somewhat oblong in shape, has a brilliant golden color with a slightly red cheek and is a freestone. Flavor is delicious, perfect for desserts and canning. Perfect pollitizer. **PRICED BELOW.**

## KALHAVEN

**Immense—Red All Over—Good Shipper**

A Michigan Peach which is a result of a cross between the J. H. Hale and the old Kalamazoo varieties. Very hardy, freestone and self-pollenizing. Ripens a few days before Elberta. Fruit is large in size, round in shape, a beautiful golden yellow and an extremely good shipper. When canned presents a golden peach of outstanding flavor and texture. **PRICED BELOW.**

## MICHIGOLD

**Superior Mid-Season Variety**

We introduced Michigold a few years ago as a superior midseason variety and it has taken over tremendously where it has been tried. It is a larger peach than Hale Haven and carries more color. This large size coupled with its color, makes it a top market variety. It ripens between Hale Haven and Elberta and is perfect flowering. As it originated on the lake shores of Michigan it is extremely hardy and is a very healthy grower. **PRICED BELOW**

## HON-EE-GOLD

**WILL NOT DRY ROT AND IS AN EXCELLENT SHIPPER**

Hon-EE-Gold is a native of Michigan—a proven variety that has all of the good points and none of the bad. We have a fair supply and to anyone who wants a peach that ripens after Elberta, we do not believe you could improve on the Hon-EE-Gold variety. It is marvelous in size, slightly on the round type. It is 10 to 20% larger than Elberta and it has a bright red cheek when it is fully ripened. Hon-EE-Gold has an excellent flavor. The inside of the peach is a golden yellow with a slight amount of red next to the pit. **PRICED BELOW.**

## REDHAVEN

**Excellent Extra Early Market Peach**

The Redhaven peach is a Michigan origination, which makes it especially hardy. It is practically the earliest peach that we have and as it carries a good red color long before it ripens, you can pick it almost any time you desire. It is an excellent shipper. Fruit is very firm, easy to handle, bright red in color, with golden firm-textured flesh. **PRICED AT RIGHT.**

### SPECIAL BARGAIN

**Husky 18 to 30 Inch Trees**

These trees are headed especially low and we can furnish them in all varieties listed on pages 14 and 15. We will fully guarantee these trees in every way it is possible to guarantee a good tree. These trees not available until Fall 1959. No Spring orders accepted. Not less than 10 of a single variety sold in this bargain.

Sunhaven and Rich Haven not included in this offer.

# ELBERTA

**Famous For Flavor—For Making Money**

No other peach has ever attained the popularity of this variety. Elberta is the leading commercial peach. Very large, slightly oval in shape, it has yellow skin with a slight blush. Flesh is firm, fine-textured, and fruit has a rich flavor. Its thick skin makes it ideal for shipping. Excellent for canning, drying and freezing. Ripens medium late. It is freestone and self-pollenizing, also a good pollenizer for other varieties. Usually bears the third year—enormous producer at maturity. Trees are quite hardy, but may be affected by severe frost. **PRICED BELOW.**

## GOLDEN ELBERTA

**Sweet and Juicy—Good Eating**

It is identical with the common Elberta with the exception that it is golden-yellow with a slight blush on the cheek. Same ripening season, same size and shape as Elberta. **PRICED BELOW.**

## J. H. HALE

**Exceptionally Large Peach**

A peach which is highly prized because of its exceptionally large size, and is recommended for fancy trade. It is absolutely round. A yellow fleshed freestone with a slight amount of red. Should not be planted in solid blocks because it is not self-pollenizing. **PRICED BELOW.**

## AMBER GEM

**Frost-Proof Canning Peach**

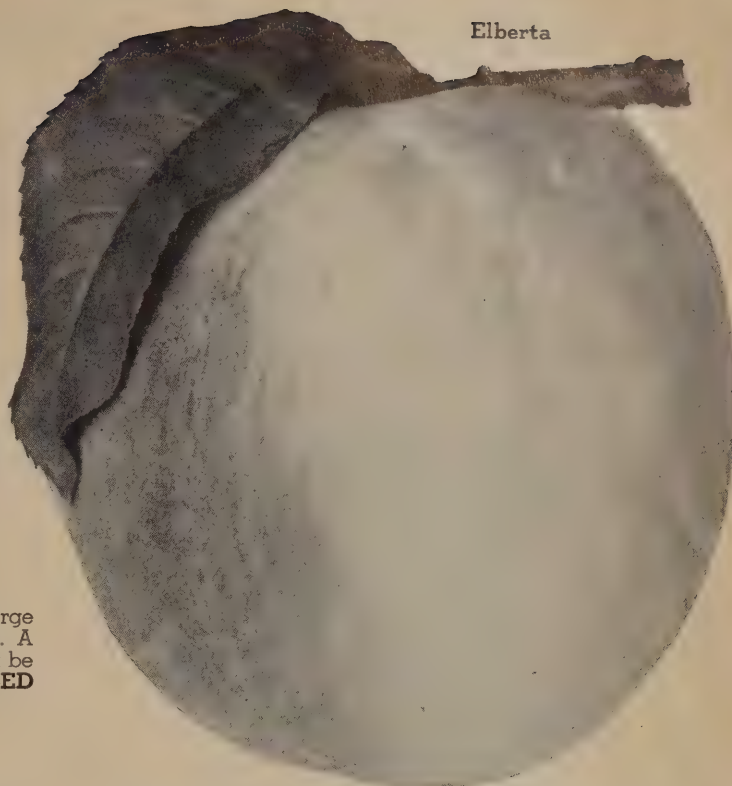

A clingstone variety. The tree bears an enormous crop of large sized peaches that are extremely bright red in color, with a yellow tinge. Extremely heavy-skinned and the finest shipping peach we have. Wonderful for canning and is used almost 100% by commercial canners. Very hardy and does not dry rot on the tree. We should like to see every grower plant several trees for trial. **PRICED BELOW.**

### PRICES: Elberta, Golden Elberta, J. H. Hale, Amber Gem, White Hale, and Red Skin

	Each	5	10	25	50	100

Commercial growers who plant 250 or more trees, write us for prices and state varieties wanted.

Elberta

## WHITE HALE — Produces Every Year

White Hale originated on our farm here and is the finest white peach that we have ever seen. It has a large size, a wonderful flavor, and is an absolute free stone. It has produced a crop of fruit here every year since we introduced it and if you like white peaches or have a demand for them, there is no better variety that you can plant than White Hale. It ripens midseason, is hardy, and will make a valuable addition to any home garden. In sections where there is a market for a white peach we recommend White Hale as a great commercial variety. **PRICED AT LEFT.**

## RED SKIN — Even Better Than Elberta

The Red Skin peach is exactly as its name implies. It is an all-over red peach when it is fully ripened. A product of the Maryland Experimental Station and wherever it has been tried it is becoming extremely popular. It is a freestone peach, ripening approximately with Elberta and it has a beautiful red color. The fruit is round, yellow fleshed with no appreciable red color near the pit. It has a delicious flavor and is an excellent shipping variety. On the Chicago market where it has come in competition with Elberta it has brought \$1.00 to \$1.50 more. It is self pollenizing. Our supply is somewhat limited so orders should be placed as early as possible for this variety. **PRICED AT LEFT.**

# GOLDENETTE

Patent applied for.

## THE PERFECT PEACH

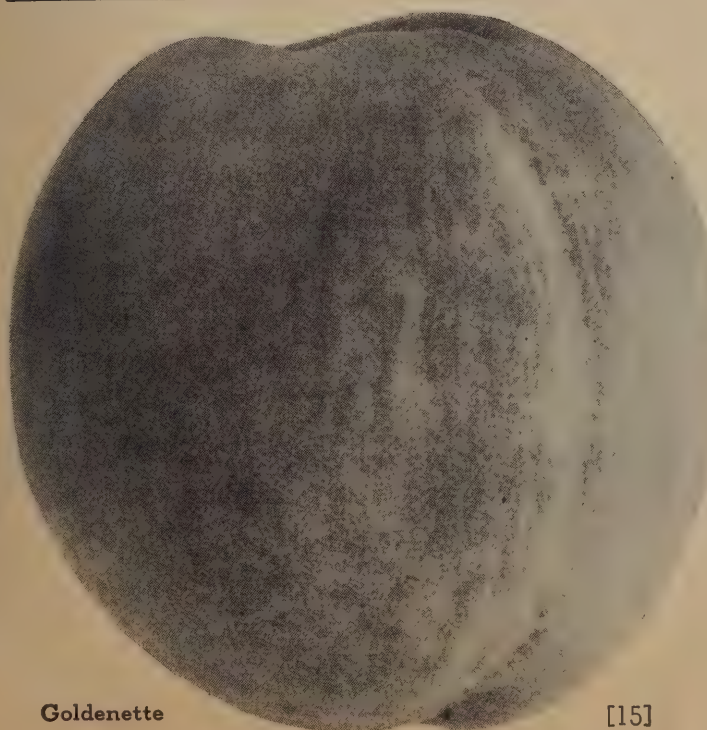

We call the Goldenette the perfect peach because we sincerely think there is no peach that is as good. This year Goldenette has proven to be the most desirable peach that we have. It's high in quality and a yellow freestone variety. It's as large as Hale, has a better yellow color and is the most wonderful peach for processing that we know of. It is almost perfectly round and has a very tough skin but when you once get through this skin, the inside is the most deliciously flavored peach that we have ever tasted.

### Prices on Goldenette

# APPLE TREES

## ANOKA

Quickest to bear. No long waiting for fruit. Beautiful red striped fruit. Excellent to eat fresh and makes wonderful pies and applesauce. Hardy everywhere.

## BEACON

Beacon ripens in early fall, carries a lot of red color, is good size, and wherever known has crowded all other apples into the background. Bears young and having originated in the north, it is a very hardy variety.

## DOUBLE-RED JONATHAN

It colors up very early in the fall, and enables you to pick your fruit a week to ten days before the common Jonathan will color up. The fruit is firm, crisp and tender.

## SOLID RED WINESAP

An improved strain of the Old Stayman's Winesap. It is a large, round, cherry red winter apple. Very popular.

## RED NORTHERN SPY

An improved strain of the common Spy apple. Very popular for eating and wonderful for pies and sauces.

## CORTLAND

Large, dark red and good shipper. The finest of our fall apples. It is a cross between the McIntosh and the Old Ben Davis.

## YELLOW DELICIOUS

This variety is identical in shape and size with the ordinary red Delicious, but is completely yellow in color. Is sweetly acid in flavor, firm, crisp and juicy.

## DOUBLE-RED DELICIOUS

The tree does well practically all over the United States. Fruit is a wonderful size, is finely fleshed, juicy, and has a sweet flavor with a slight acid taste. Excellent for eating and most popular for fruit-stand purposes. Good winter apple.

## WEALTHY

A fall apple, medium in size, and has a very fine flavor. Much desired for cooking and pies.

## GRIMES GOLDEN

An all yellow apple. Round in shape, medium size and is quite acid in flavor. It ripens in the fall and is a good winter apple.

## RED ROME

This variety is an all-red strain of the old type Rome Beauty. It is very highly prized for baking purposes. It is almost a solid red and of very large size. One of the best varieties for winter.

## RED McINTOSH

A superior strain of the old type McIntosh. It is practically all red, a fine eating apple, of good size, and a delicious flavor.

## R. I. GREENING

Old established sort. Yellowish green when ripe. Golden colored flesh. The best for cooking and home use.

## YELLOW TRANSPARENT

This variety is good to eat long before other varieties are ready. It is yellow in color, very crisp, juicy white flesh, and has a delicious flavor.

## HYSLOP CRAB

This is the only variety of crab apple that we list, as it is by far the best. Fruit is dark purple color when fully ripened and has a wonderful flavor. Used by canners for pickling, jelly, etc.

# You Pick Fruit Years Sooner by Planting **THRIFTY SUPER SIZE TREES**

If you want 6 to 12 trees and quick results, order our Super-King Size Fruit Trees! They will bear in half the time and can be furnished in almost any variety. By setting these large trees you save time, as it requires from 3 to 5 years to grow them in the nursery. The cost, naturally, is higher, but your extra cost is quickly returned to you by the fruit which is produced soon after

planting. These trees require no special culture. They must be carefully planted, however, spreading out the roots in the opening and setting them deep enough so that the wind will not blow them over. They should be carefully watered after planting and the addition of about 3 to 4 tablespoonsful of commercial fertilizer per tree is advised.

## **✓ SUPER SIZE APPLE TREES**

These are large trees. They will caliper more than one inch, are heavily branched and well rooted. For varieties see page sixteen. 6-7 ft. trees, \$2.95 each; 2 for \$5.60; 5 for \$12.45.

## **✓ SUPER SIZE PEAR TREES**

Pear trees do not grow to a great height in the nursery but these trees will be from 5-7 ft. in height and one inch in caliper. See page nineteen for the varieties in which these Super Size Pear Trees are available. 5-7 ft. trees, \$2.55 each; 2 for \$4.90; 5 for \$11.25.

## **✓ SUPER SIZE PLUM TREES**

We offer Super Size Plums in Stanley Prune only. It's the best blue plum and will bear early. 5-6 ft. trees, each \$2.25; 2 for \$4.25; 5 for \$9.95.

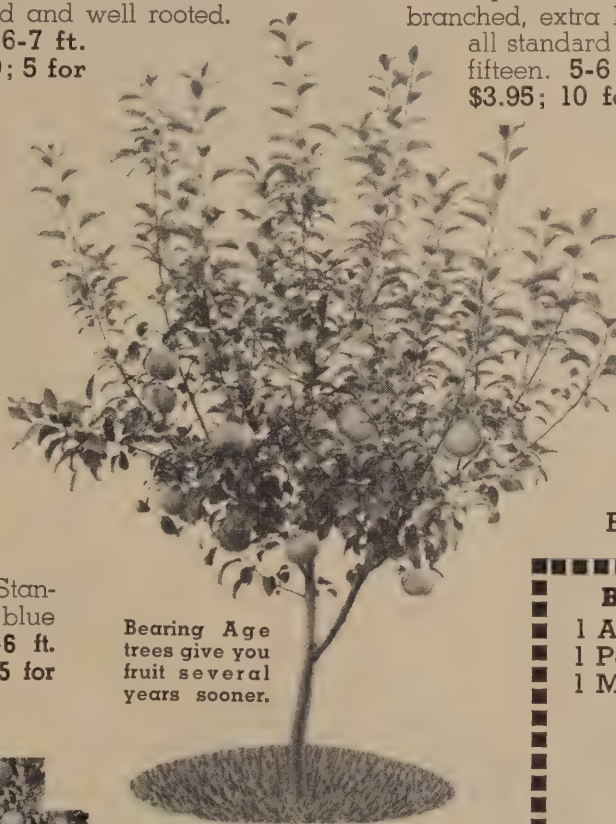

## **✓ SUPER SIZE PEACH TREES**

These peach trees caliper one inch and up. Well branched, extra heavy root system. Available in all standard varieties. See page fourteen and fifteen. 5-6 ft. trees, \$2.25 each; 2 for \$3.95; 10 for \$17.50.

## **✓ SUPER SIZE CHERRY TREES**

Available in Montmorency only. Blocky, heavy-bodied, well rooted, branched cherry trees. Will caliper more than one inch. Will bear quickly. Guaranteed to be free from disease. 5 ft. up, \$2.25 each; 2 for \$3.95; 5 for \$8.85.

**ALL TREES ON THIS PAGE MUST BE SHIPPED BY EXPRESS OR FREIGHT.**

Bearing Age trees give you fruit several years sooner.

## **5 In 1 APPLE TREE**

*"The City-man's Apple Orchard"*

Red Delicious

Winesap

Wealthy

Jonathan

Yellow Transparent

The quintuplet apple is a tree that has been produced so that the small home owner, who has a restricted planting space, can have a variety of apples over a long picking season. We have budded some of the best kinds so that you will have a Double-Red Delicious, Jonathan, Winesap, Yellow Transparent, and Wealthy. These are five of the best varieties and they will bear fruit over a long period of time. The different varieties will bloom at different times and these trees can be used for ornamental purposes if desired.

These are large, 4 to 6 ft. trees, and are priced at \$2.75 each; 2 for \$4.95; 5 for \$11.95.

CAN BE SHIPPED BY FREIGHT OR EXPRESS ONLY.

# MONTMORENCY

## Hardy and Productive Sour Cherry

This is the only sour cherry that is profitable to grow. Preferred by canners to all other sour varieties. The trees that we grow are certified by the Michigan Department of Agriculture and are propagated from mother trees producing the largest and the highest colored fruit that we can find. Practically all of our cherry trees are grown from buds taken from two mother trees in our own orchard and we think that they are the finest that can be obtained. The tree is long-lived, requires a minimum amount of spraying and as stated above, is the only commercial grown sour cherry today.

### COMMERCIAL GROWERS

If you are interested in Montmorency trees in large quantities, write us for prices as we can furnish you trees that are absolutely guaranteed in every way.

### PRICES:

	Each	10	25	50	100

# SWEET CHERRIES

### CHERRY BARGAIN NO. 8

- 1 Montmorency (Sour)
- 1 Schmidt's Bigarreau (Black, Sweet)
- 1 Napoleon (Yellow, Sweet)

All 7/16" 3-4' trees **\$4.69**  
NET, NO DISCOUNT

### SCHMIDT'S BIGARREAU — Giant Black Cherry

The Schmidt's Bigarreau is the giant of the Black Sweet Cherries. It is a hardy strain and is the black cherry seen on most fruit stands. Its color is a deep mahogany red and the flesh is quite tender and very juicy with a fine flavor. It is practically a perfect pollinizer although better results can be obtained if you will plant about 1 Black Tartarian to 20 Schmidt's Bigarreau when setting them commercially. The tree bears very young. Is ideal for midwestern growing as it is hardy and is a sure cropper. **PRICED BELOW.**

### BLACK TARTARIAN

Popular for eating, canning and shipping. Flesh is purplish black, sweet and juicy. Ripens in July. Trees are hardy and bear young. Good producers of large sized fruit. **PRICED BELOW.**

### WINDSOR

Large dark red cherry. Flesh is quite firm—an excellent shipping variety. Fruit clings to tree long after ripe. Hardy, prolific bearer, self-pollinizing. **PRICED BELOW.**

### NAPOLEON

A choice yellow sweet cherry of highest quality. Large size, very firm, juicy, and sweet. Bears enormous crops, ripening in July. Sometimes known as Royal Ann or White Oxheart. **PRICED BELOW.**

Schmidt's  
Bigarreau

**SWEET CHERRY PRICES:** All budded and well-rooted trees. Always set two trees for cross pollination.

	Each	5	10	25	50	100
5/16 3 ft. up (not less than five trees)		7.50	14.00	32.00	59.50	95.00
7/16 3-4 ft.	1.85	8.95	16.25	36.50	65.45	119.00
9/16 4-5 ft.	\$2.10	\$9.95	\$19.50	\$42.50	\$74.50	\$125.00

Quantity lots should be ordered early, Sweet Cherries are not plentiful this year.

# PEAR TREES

Bartlett

Clapp's

## BARTLETT

The favorite commercial pear. Fruit is very large, juicy, golden yellow in color, with a soft blush. It is quite uniform in shape. Favorable for shipping, canning, and eating.

The tree is a strong grower and produces very young. Hardy. **PRICED BELOW.**

## CLAPP'S FAVORITE

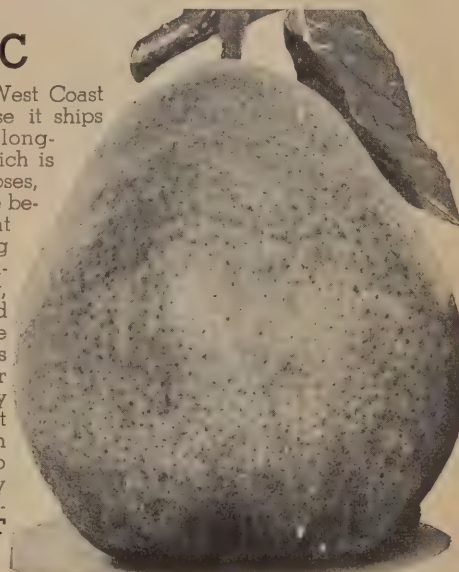

Perhaps the largest of all pears, and always tops the market because of its excellent appearance. Greenish yellow skinned with a dark red blush. Quite juicy and sweet. A good shipper. Ripens shortly after Bartlett. **PRICED BELOW.**

## FLEMISH BEAUTY

A pear that is honey sweet in flavor when fully ripe. Medium to large size, pale yellow colored with reddish brown cheek. Flesh is fine-grained, very juicy. Tree lives to a remarkably old age. Fruit ripens about the same time as Bartlett. **PRICED BELOW.**

## BOSC

A favorite West Coast pear because it ships so well. A very long-necked pear which is used for boxing purposes, but is highly desirable because of its excellent flavor and shipping qualities. Flesh is tender, buttery, very juicy, with a rich flavor and pleasing aroma. Tree bears young and is hardy. It is a rather slow grower but very productive. The fruit has a long stem which enables it to cling to the tree even in heavy winds. Ripens late September. **PRICED AT LEFT.**

Flemish Beauty.

## LAWSON

This pear, which is about the same size as Bartlett ripens 50 days before Bartlett. It is golden yellow with a brilliant red cheek. Hardy and free from blight. **PRICED BELOW.**

## SECKEL

Always in market demand and equally valuable for home use. Medium sized pear; ripens late September. Delicious flavor and quality—sweet as candy. **PRICED BELOW.**

### PEAR PRICES: Well Rooted Selected Trees

		Each	5	10	25	100
7/16	3-4 ft.	1.50	6.95	10.95	24.50	80.00
9/16	4-5 ft.	1.60	7.70	14.95	29.50	95.00
11/16	5-6 ft.	\$1.85	\$8.85	\$16.95	\$34.50	\$105.00

Let us quote you on larger quantities.

# PLUM TREES

## STANLEY PRUNE

The Stanley Prune plum is without a doubt, the finest and most beautiful blue plum that we have today. It is very large, very rich in flavor, and it is hardy in all sections of the United States. It is deep blue in color with a golden yellow flesh and it is absolutely freestone. The chief quality of Stanley Prune, other than its large size and beautiful color, is that it does not rot on the tree. It is quick bearing, often starting to bear the second year after it is planted. Excellent shipper. **PRICED AT RIGHT.**

## YELLOW EGG

A plum that is egg shaped, very large size, and extremely sweet. Prized very much for culinary purposes. Trees grow very large, are very vigorous and very hardy. Fruit ripens late August. It is golden yellow; fine quality. **PRICED AT RIGHT.**

## BLUE DAMSON

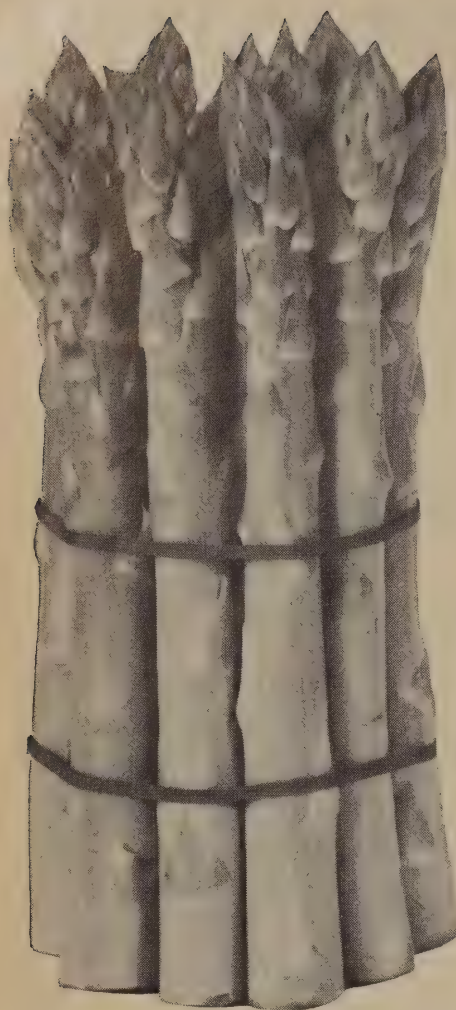

Most popular of all preserving plums. Extremely high flavored. Turns a rich wine-red when preserved. Small fruit, dark blue in color, rich golden interior. Highly prized for jams and jellies. Tree is hardy, bears early and is a heavy producer. Grows 10 to 12 feet high. **PRICED AT RIGHT.**

### PLUM PRICES—ALL VARIETIES

		Each	5	10	25	50
7/16	3-4 ft.	\$1.60	\$6.95	\$13.50	\$28.50	\$54.00
9/16	4-5 ft.	1.85	8.50	16.50	31.00	59.50

# Money-Making Pedigreed ASPARAGUS Plants

## New PARADISE

### Early, Easy to Grow, Rust Resistant, Immense Money Maker

The New Giant Strain of asparagus. It will produce a crop one or two years sooner than will any other known variety today. It is rust resistant, producing stalks of immense size and wonderful appearance. Is easy to grow, and once planted will last 12 to 15 years with very little care. Paradise is the first asparagus to produce in the spring, and this crop is harvested early when you do not need to be bothered with other things on the farm.

Paradise asparagus offers you a great opportunity to make money. These fine large rooted plants, produced from expensive pedigreed seed, enable you to buy the world's finest at a cost no higher than for common stock. Grown on special sandy soil, fertilized and dug with special machinery to get the whole root system, we offer you a premium plant at a reasonable cost. Paradise asparagus does not require any special care. We have complete culture on asparagus, ask for it when ordering.

## MARY WASHINGTON

The pedigreed seed that we use produces specimen stock often more than an inch in diameter. It is very crisp and delicious. Wonderful for canning. The heads of Mary Washington are very solid and compact; thus, always commanding a better price than asparagus that has loose heads. This variety is absolutely rust resistant. Grows very fast and comes up exceedingly thick in the row, producing a very heavy crop. Approximately 5,000 plants are required to set an acre. Once planted they last for years, requiring little care. Starts to bear in Michigan in May and continues for about two full months.

### ASPARAGUS

#### PRICES—New Paradise and Mary Washington

	25	50	100	500	1000	5000
1 Yr. Plants.....	\$1.25	\$2.35	\$3.70	\$ 9.75	\$17.95	\$ 75.00

We can furnish asparagus in large quantities at attractive prices. Write us for prices.

Home or garden owners should always plant 3 year old stock.

## Amazing New Ornamental BEACH PLUM

The Beach Plum is a unique bush which has proven to be valuable not only as a very beautiful ornamental, but also for its fruit. Early in the spring before any leaves come out, it has attractive white flowers. Grows well even in poor soil. Bears very early and is absolutely hardy. Fruit is blue and has a good flavor. Wonderful for jams and jellies. Ripens in August. Dwarf in type.

### PRICES

2-3 ft. trees each \$2.25;  
2 for \$4.25; 4 for \$7.95.

## Canada Red RHUBARB

The Chipman strain of Canada Red Rhubarb is the finest obtainable today. It is a decided improvement over the common Canada Red. It is a beautiful cherry red all the way through. Color and flavor sell it readily. **PRICES: Large Divisions, each 75c; 3 for \$2.10; 10 for \$6.10; 100 for \$49.00.**

## Valentine RHUBARB

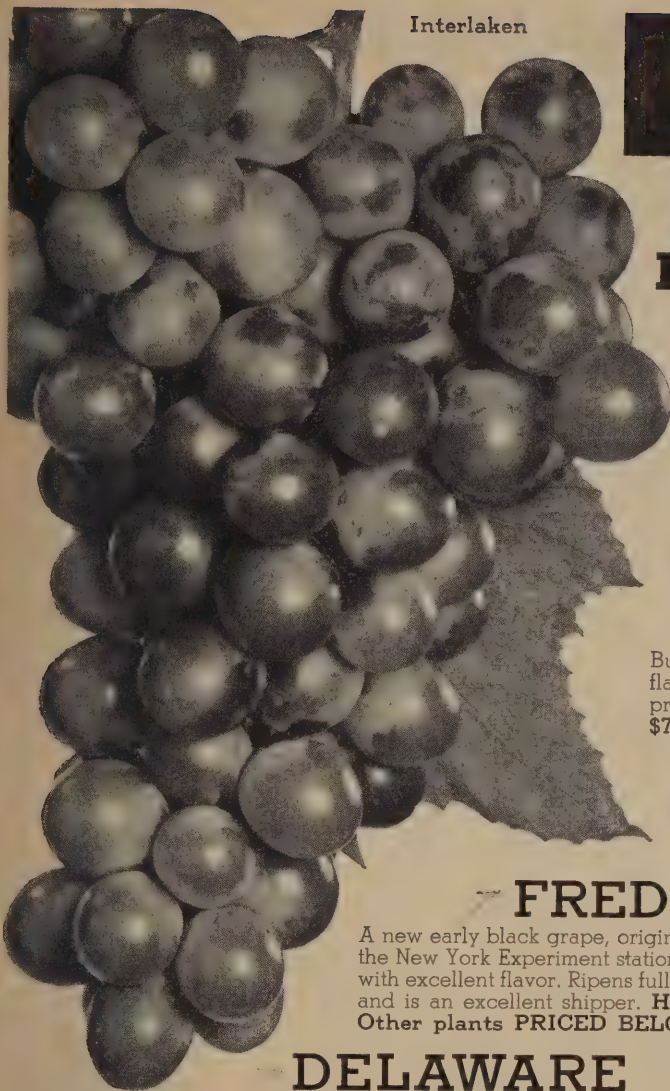

Newest of the red varieties. Developed in Canada and very hardy. Its large stalks are extremely dark red in color. Flesh is very tender and has a fine flavor. Produces a bright red sauce. Excellent for pies! **PRICES: Large Divisions, each 95c; 3 for \$2.70; 10 for \$8.25; 25 for \$18.75.**

## MacDonald RHUBARB

A Canadian origination, it is bright cherry red the full length of the stalk. Stalks are very large and this variety is a huge producer. Plants are healthy, strong growers, producing long deep red to pink ribs of very fine flavor. Especially suitable for field growing.

**PRICES: Large Divisions, each 70c; 3 for \$1.95; 10 for \$5.95; 100 for \$47.50.**

Interlaken

# Grape Plants

*New Grape*

## INTERLAKEN SEEDLESS

**Greatest Dessert Grape Ever Introduced**

A California type grape that is absolutely seedless and is hardy in the North. Fruit is white with a golden cast. Medium sized fruit borne on long bunches. Quality is very sweet, has a delightful flavor. We personally recommend this grape as every home should have from 2-6 bearing vines. Ripens 15-20 days before Concord. Try it. Something new and better.

**PRICES: SELECTED PLANTS**

\$1.45 Each

3 for \$3.75

10 for \$12.00

## GOLDEN MUSCAT

Bunches are of good size, brilliant yellow in color, and have a delicious flavor. Will do well wherever the Concord grows. Excellent shipper and producer. **Prices:** 1 yr. No. 1 plants, 80c each; 4 for \$3.00; 10 for \$7.00; 20 for \$13.25.

## NIAGARA

Leading commercial white grape. More productive than other white varieties. Berries are very large, and bunches compact. The quality of Niagara compares with Concord. **PRICED BELOW.**

## FREDONIA

A new early black grape, originated and thoroughly tested by the New York Experiment station. Bunch and berries are large with excellent flavor. Ripens fully 10 days before Moore's Early and is an excellent shipper. **Huge 3 yr. plants, 85c each. Other plants PRICED BELOW.**

## DELAWARE

Small, compact bunch. Berries are small, red, with thin skin, and unusually sweet. Ripens with Concord. Very hardy, and enormous producer. Long called the standard of excellence of all grapes as a table delicacy. **PRICED BELOW.**

## CONCORD

Grows on all soils, producing enormous crops of large blue-black berries of highest quality fruit. Highly resistant to drought, insects and diseases. Ripens mid-September. America's leading wine and table grape. **Huge 3 yr. plants, 85c each. Other plants PRICED BELOW.**

## SENECA

Commonly called the skinless grapes. Golden honey colored, flavor sweet and delicious. Vine is vigorous and very productive. A fine grape for storage. **Prices:** 1 yr. No. 1 plants, 80c each; 4 for \$3.00; 10 for \$7.00; 20 for \$13.25.

## VAN BUREN

Luxuriant grower, producing compact and well shaped bunches of blue-black color. Exceptionally sweet. Extremely early, ripening 3 to 4 weeks before any other grape on the market. **Prices:** 1 yr. No. 1 plants, 75c each; 5 for \$3.50; 10 for \$5.00; 50 for \$17.50.

# Hardy Ornamental HEDGES

## AMOOR RIVER PRIVET

### Most Popular Hardy Hedge

Succeeds anywhere, perfectly hardy. A large dense shrub with upright branches. The handsome leaves are dark, shiny green and lustrous from early spring until late fall. Not subject to blight—resistant to insect pests. Trim to desired height and shape at any time during the summer. Leave untrimmed for foundation and screen plantings. Set bushes 9 to 12 inches apart. For very wide hedge, plant 2 rows, alternating the plants. Easiest of all privets to grow.

#### PRICES:

2 Yr. 12-18 in.					
	10	25	50	100	200
2 Yr. 12-18 in.	\$1.90	\$3.75	\$ 6.95	\$10.95	\$19.50
2 Yr. 18-24 in.	2.55	4.75	8.85	14.95	26.00
2-3 ft.	3.65	6.90	12.85	23.50	39.00

Spirea Van Houttei Hedge

## SPIREA VANHOUTTEI

One of the most attractive Spirea blooming early in spring. During June the branches are literally covered with white double flowers which are borne like garlands along the slender and graceful stems. Very hardy and thrifty. Can be trimmed any time during summer. Makes a perfect informal or screening hedge. Grows successfully anywhere. Beautiful bright green foliage comes early and stays late. Plant 2½ to 5 ft. apart.

#### PRICES:

12-15 in. branched plants					
Each	5	10	25	50	
\$0.30	\$1.45	\$2.85	\$5.75	\$9.85	
18-24 in. branched plants					
.40	1.95	3.80	7.25	11.25	

## AMOOR RIVER PRIVET BARGAIN

We have a field growing to Amoor River Privet and so we are making a special bargain on them in lots of 500. These are wonderful plants, well branched and well rooted and will run from 12-16 inches in height. Grow them one year and they will be 2-3 feet in height.

PRICE IN LOTS OF 500  
\$39.00.

## BEAUTIFUL LIVING BARBED WIRE FENCE

## MULTIFLORA ROSE

### Low Initial Cost—No Repairs

The Multiflora Rose is a living fence, is an aid to soil conservation, and it seems to be adapted to almost the entire Country. Grown on soil of average to good fertility, it will produce a hedge in three to four years that will turn any kind of livestock except small hogs

and poultry. In May or June, a Multiflora Rose fence presents a spectacle of a ribbon of bloom running over the hillside. The white or dusty pink bloom comes all at once and lasts about two weeks. Foliage appears early in spring and persists until heavy frosts of winter. Multiflora Rose is a natural habitat for game birds and wild life of all kinds.

#### PRICES: 12-14 in. (Medium)

10	25	50	100	500
\$1.45	\$2.50	\$4.45	\$ 7.95	\$32.50
18-24 in. (Heavy)				
\$2.25	\$4.20	\$7.85	\$12.90	\$59.50

#### Stock-Proof and Well-Behaved

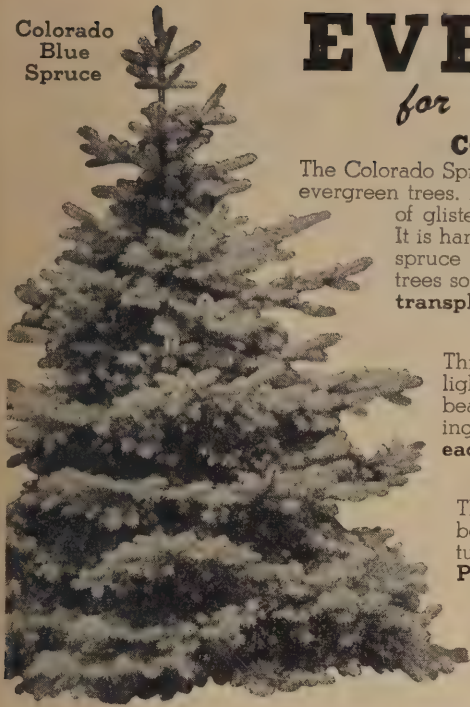

Multiflora Rose is offered to those who realize that they can save a great deal of money by planting this type of hedge instead of putting in posts and wire. Will grow and thrive under any conditions and does not spread from the roots. As it grows older, it continues to grow thicker and higher. Multiflora Rose, ordinarily, is planted about 12 in. apart in the row. If a tighter fence is desired, set plants 6 to 8 in. apart.

Colorado  
Blue  
Spruce

# EVERGREENS

*for Year Around Beauty*

## COLORADO BLUE SPRUCE

The Colorado Spruce is without a doubt one of the finest of blue-type evergreen trees. It grows to a great height and is an ornamental tree of glistening silvery blue from early spring to midsummer. It is hardy and is perhaps the most showy and popular of all spruce trees. Our seeds are taken from carefully selected trees so as to obtain the very finest color **PRICE: 10-12 in. transplants each \$1.60; 3 for \$4.50; 10 for \$12.50.**

## EUROPEAN LARCH

This is an upright conical grower. Has a soft, feathery light green foliage early in spring. In autumn it is very beautiful as its needles turn a golden color before falling. One of our best lawn trees. **PRICE: 12-18 in. each 85c; 2 for \$1.60; 5 for \$3.50.**

## MUGHO PINE

The leading Dwarf Evergreen. Numerous side branches begin close to the ground, spreading horizontally and turning upward in regular growth. Grows in shade. **PRICES: 12-15 in. spread each \$2.75; 2 for \$4.95.**

## SPREADING YEW

Branches out from the bottom into a low bushy formation. Can be trimmed to desired height or to fit space. Foliage dark green. **PRICE: 10-12 in. each \$1.95; 2 for \$3.50; 5 for \$7.95.**

## Pyramidal Arborvitae SPINY GREEK JUNIPER

A favorite for entrances. Grows tall and narrow. One of our leading evergreens, it grows rapidly, has a shapely pyramidal habit and is easily trimmed. **PRICE: 12-18 in. each \$2.15; 2 for \$3.95. 18-24 in. each \$3.25; 2 for \$6.25.**

Its habit is narrow and columnar with many erect branches and branchlets. Foliage is spiny, with sharp points and of a glaucous blue color. Reaches a height of 5 ft. at maturity. **PRICE: 10-12 in. each \$1.60; 3 for \$4.35.**

## HATFIELD YEW

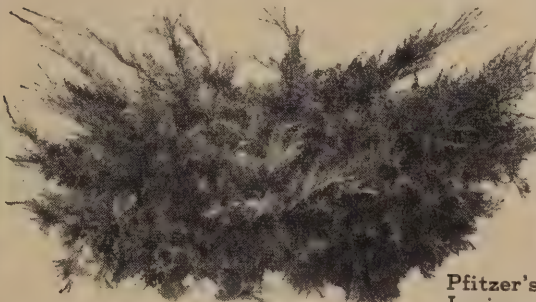

Grows in columnar erect form. Vase-shaped. Foliage is dark green, heavy and luxuriant. Very hardy. **PRICE: 10-12 in. each \$1.95; 2 for \$3.70**

## PFITZER'S JUNIPER

Low, spreading bush with plume-like branches. Beautiful silvery blue-green foliage. Very hardy. **PRICE: 10-12 in. each \$1.95; 2 for \$3.70; 4 for \$6.95.**

## NEW "SUMMER LONG" EVERBEARING PEACH

(Patent Applied for) Something new in the peach world. Can you imagine a peach tree bearing just like an Everbearing Strawberry? The Summer Long Peach starts to ripen here about the 20th of July and bears until the middle of September. The tree produces a medium sized, yellow, freestone peach of excellent quality. The flesh is sweet and tasty, and being very firm does not bruise easily. This is a real novelty and at the same time a practical one. The tree is very vigorous and makes an excellent growth on good soil. Have fruit for over two months from the Summer Long tree.

### PRICES:

3-4 ft. trees \$2.95 each 2 for \$5.70 4 for \$11.00

## Ornamental TREES RED LEAF PEACH

### Brilliant Red Foliage All Year

This brilliant red-leaved tree is not only decorative but produces worthwhile fruit as well. Its habits of growth are practically identical with the common peach. Fruit is white and highly flavored; ideal for pickling. Its deep rose colored blossoms contrast beautifully with its red foliage.

PRICES:	Each	2	4
3-4 ft. trees	\$1.25	\$2.20	\$3.95
4-5 ft. trees	1.75	3.00	5.60

Red Leaf Peach

## NEW "Cherokee Chief" DOGWOOD

A new and distinctive red-flowering dogwood. It is a clean rich ruby red that holds up throughout blooming period. A strong grower, has uniform branching habits. In spring and early summer the new growth is bright red. Fall coloring is bright scarlet shading to green.

### PRICES:

	Each	2	4
2-3 ft. trees	\$4.85	\$ 8.75	\$15.85
3-4 ft. trees	7.50	14.85	23.85

## MAGNOLIAS

**Soulangeana.** Fragrant blossoms appear early in spring. Large rose-pink blooms appear long before any leaves. Reaches a height of 10-15 feet at maturity. Very ornamental.

**Nigre.** Flowers are a beautiful purplish-red outside and waxy white inside. **PRICES:** Soulangeana and Nigre: 18-24 in. \$2.85 each; 2 for \$5.50; 4 for \$9.95. 2-3 ft. \$3.95 each; 2 for \$7.85; 4 for \$15.20.

Magnolias

## Crimson King MAPLE

The Crimson King Maple is one of the most beautiful of all red-leaved trees. Grows identical with the common maple, but has deep red leaves from early spring until late fall. Is hardy and grows rapidly. Creates a sensation wherever grown.

PRICES:	Each	2	4
4-5 ft. trees	\$4.35	\$6.96	\$13.95
5-6 ft. trees	5.45	8.45	15.95

# Unusual, Exciting Flowering Trees

Red Flowering Dogwood

## WHITE FLOWERING DOGWOOD

Large, white flowers with an extra row of center petals. Red berries in the fall, also the leaves turn red. Grows to a height of 10 to 15 feet at maturity. May be trimmed as desired. 3-4 ft. trees, \$2.20 each; 2 for \$3.95.

## RED FLOWERING DOGWOOD

(*Cornus Florida Rubra*) Produces a great profusion of large rose-red flowers in the spring. Heavy with glossy red berries in the fall. Attractive grayish green foliage in the summer, turning a rich crimson in early autumn. Tree grows 10 to 15 feet tall. Well suited for small yards. Adds greatly to any landscape picture. PRICE: 18-24 in. each \$2.75; 2 for \$4.75; 4 for \$8.95.

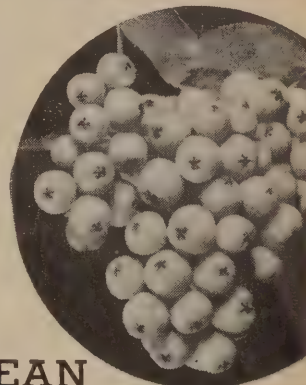

French Pussy Willow

## FRENCH PUSSY WILLOW

Silky gray catkins burst forth to decorate the brown twigs early in the spring. Branches may be cut in mid-winter for bouquets in the house. Large tree-like shrub with long narrow leaves. 18-24 in., \$1.10 each; 3 for \$3.15.

## BECHTEL'S CRAB

A hardy, small, flowering tree. Compact grower, prune as desired. Double flowers of delicate pink resembling small roses, completely cover the branches in early spring. Very fragrant. Ideal for small lawns. Distinct lobed leaves. PRICE: 3-4 ft. trees, \$1.50 each; 2 for \$2.75.

## EUROPEAN MOUNTAIN ASH ↑

In late summer it is laden with clusters of bright red berries against a background of lacy green foliage. Hardy, one of our most beautiful ornamental trees. May be trimmed as desired. At maturity is about 18-25 feet tall. PRICE: 3½-5 ft. trees, \$2.25 each; 2 for \$4.30; 4 for \$8.20.

## MULTIPLE BIRCH

These are a special strain of beautiful American White Birch. Three or more trunks from one root. Bark is white on mature trees and remains white summer and winter. Perfectly hardy, easy to grow, thrives anywhere. A very beautiful tree at all times of the year. PRICES: 3-4 ft. clumps, \$2.95 each; 2 for \$5.65.

Bechtel's Crab

## HOPA CRAB

Most beautiful flowering crab that can be grown in the north. Absolutely hardy. Graceful, medium sized tree strikingly ornamental. Buds are blood-red, flowers deep rose colored. 3-4 ft. trees, each \$1.85; 3 for \$5.10.

Hopa Flowering Crab

## FLOWERING PEACH

Flowers appear early in spring before the tree leafs out and are very thick. Height about 15 ft. at maturity. Available in RED or WHITE flowers. State color. 3½-5 ft. trees, each \$1.50; 2 for \$2.75.

Flowering Peach

## SMOKE TREE

Purple Fringe Smoke Tree. Strikingly different shrub. Hardy and easily grown. In late summer and fall it is covered with fine, purplish, misty-looking flowers which give it a smoky appearance. Flowers are long lasting. 18-24 in. trees, each 85c; 2 for \$1.50.

Smoke Tree

Silver Maple

Moraine Locust

Wisconsin Willow

Sunburst Locust

## TULIP TREE

Tall pyramidal, with broad glossy leaves. Bears tulip-like flowers of white with green centers in June. Excellent for street or lawn. 3-4 ft. trees, each \$1.15; 2 for \$2.10; 5 for \$4.95.

Tulip Tree

# For Beauty and Comfort, Plant HARDY SHADE TREES

## MORaine LOCUST

Pat. No. 836

A very fast growing improved honey locust. It is absolutely thornless and vase shaped and fast spreading when older. It thrives under city conditions. Very tolerant of smoke, soot and dust. The foliage allows enough light to penetrate so that the grass will grow directly up to the trunk of the tree. It is very hardy, seedless and will grow on heavy or light soil and will withstand drought or flood. **PRICES:** 5-6 ft. each \$5.00; 2 for \$9.80; 4 for \$19.00.

## SUNBURST LOCUST

So named because 8 to 10 inches of the branch tips are covered with a brilliant golden foliage. Tree is hardy, completely free of thorns, and withstands drought, heat and cold. Grows in a symmetrical manner. A tree in your yard will dominate the neighborhood. **PRICES:** 4-5 ft. whips, \$5.25 each; 2 for \$10.25. 5-6 ft. branched trees, \$7.50 each; 2 for \$14.75

## CHINESE ELM

Fastest growing shade tree today. Extra hardy, withstands cold winters, thrives on poor soil. Useful for windbreaks, and specimen planting. 4-5 ft. trees, each \$1.50; 2 for \$2.85; 5 for \$5.65. 5-6 ft. trees, each \$1.95; 2 for \$3.75; 5 for \$8.50.

Chinese Elm

## PIN OAK

Fastest growing of all the Oaks. Grows in a symmetrical, pyramidal form to a great height. For street and lawn planting it has no equal. Tree lives to a great age. **PRICES:** 3-4 ft. branches trees \$3.95 each; 2 for \$6.95.

## SILVER MAPLE

Most rapid grower of all maples. At maturity it reaches a height from 60 to 70 feet. Dark green leaves with a silvery surface underneath, turning gold in the fall. Thrives on all kinds of soil. **PRICES:** 4-5 ft. branched trees, each \$1.30; 3 for \$3.65; 5 for \$5.75. 6-7 ft. branched trees \$1.75 each; 3 for \$4.50.

## WIS. WEEPING WILLOW

A graceful tree with drooping branches sweeping the ground. Long slender green leaves and hardier than the ordinary Baby-lonica. Rapid grower. 4-5 ft. trees, each \$1.50; 2 for \$2.80; 5 for \$6.50.

## EUROPEAN WHITE BIRCH

Hardy, tall-growing, upright lawn tree of distinctive character, its creamy white bark contrasting sharply with its foliage. Will thrive on either wet or dry soils. 4½-5 ft. trees, each \$2.15; 2 for \$3.95.

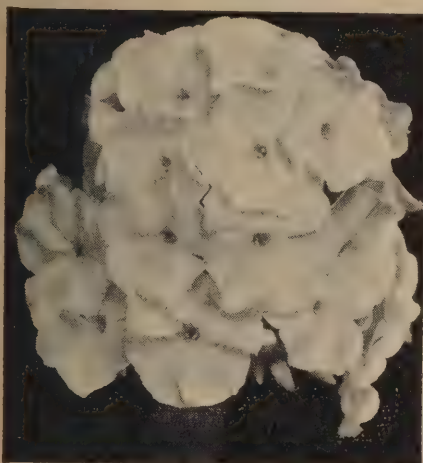

European White Birch

# CUSHION CHRYSANTHEMUMS

*Enjoy Bushels of Blooms on Every Plant*

The Hardy Chrysanthemum is one of the most popular flowers today, producing from three to seven hundred blossoms per plant and the bush increases in size as it grows older. Easy to grow in ordinary soil in full sun or part shade. They are a solid mass of flowers all fall until extremely cold weather arrives. You'll pick many bouquets and still these fall favorites will blaze with color. We list them in five different colors: **red, yellow, pink, white and bronze.** Our plants are all field grown and of good size and are priced right. **PRICES: Each 35c; 2 for 65c; 4 for \$1.20; 10 for \$2.70.**

Cushion Mums ➤

➤ Hardy Phlox

## HARDY PHLOX

The Phlox that we list are all hardy field grown No. 1 plants; produced on soil specially prepared in advance for these plants and heavily fertilized. They can be furnished in the following varieties:

**Mary Louise**—Pure white florets; large compact heads.

**Salmon Glow**—Flame pink with salmon. Vigorous grower.

**Blue Boy**—Nearest to true blue.

**Chieftain**—Deepest crimson.

**Pinkette**—Soft appleblossom pink.

**Flash**—Brilliant scarlet-red. Prolific bloomer.

**Spitfire**—Brilliant orange scarlet. Outstanding.

**PRICES: 35c each; 2 for 65c; 4 for \$1.20; 10 for \$2.70.**

Tuberous Begonia

## TUBEROUS BEGONIAS

Camellia Flower Begonias should be planted in partial shade. The Begonia is a most glorious flower, exquisitely colored. Flowers double and well shaped; broad leaves. Colors: Red, White, Pink, Yellow, Scarlet and Salmon. **PRICES: 1¼ to 1½ in. selected bulbs, 6 for \$1.00; 12 for \$1.85; 25 for \$3.75.**

➤ Hardy Carnation

## HARDY GARDEN CARNATIONS

We list only the hardy type Grenadin and we can furnish you these beautiful carnations in five colors: **Triumph**—pink; **King of Blacks**—dark velvety maroon; **Golden Sun**—yellow; **Scarlet Prince**—red; **Purity**—white. They bloom practically all summer. They are wonderful for bouquets and very fragrant flowers in single, semi-double and double blossoms on the same plants at various times. Can be shipped during April and May. **Prices: 40c each; 2 for 70c; 4 for \$1.30.**

## DWARF LEMON

Grows Lemons indoors on small plants. Most unique plant ever offered for indoor culture which was originally known as the Ponderosa Lemon. Covered with waxy-white, very fragrant flowers several times a year, followed by large lemons. **PRICE: 2¼ in. pot plants, 95c each; 2 for \$1.80.**

## DWARF TANGERINE

The Dwarf Tangerine which we offer is an extraordinary house plant. It is easy to grow, has beautiful glossy-green leaves and dainty fragrant flowers. These are followed by small, edible, deep orange fruits. **PRICE: [27] 2¼ in. pot plants, 95c each; 2 for \$1.80.**

# Flowering SHRUBS

French Lilacs

Blue Hydrangea

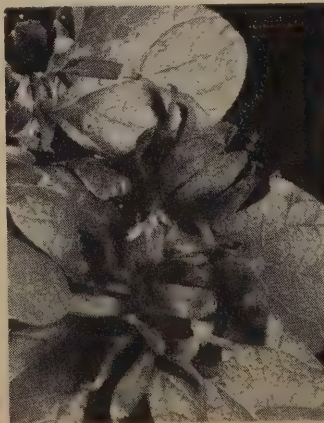

Rose Tree of China

[28] Forsythia

Tamarix Hispida

Calycanthus

Hydrangea P. G.

## FRENCH LILACS

These French Lilacs cannot be adequately described. Last a lifetime and every year adds to their beauty. Attain height of 6 to 8 ft. Bloom very young. Flowers extremely fragrant. Following varieties available.

**MME. FLORENT STEPMAN.** Pure white panicles.  
**CHARLES X.** Deep rose-red. Very popular variety.  
**LUDWIG SPAETH.** Rich purple-red. Bush is large and blooms profusely.  
**PRESIDENT GREY.** Immense double panicles of clear blue. 18-24 in. plants. **PRICE:** \$1.25 each; 2 for \$2.40; 5 for \$5.50.

## BLUE HYDRANGEA

Prefers acid soil and does well in shade. Blue color is produced almost entirely on new wood and pruning is recommended, as flowers on old wood may show pink the second year. At maturity this Hydrangea will be 2 to 3 ft. in height and a solid mass of blue flowers. **Strong field grown plants. PRICE:** \$1.55 each; 2 for \$2.85; 5 for \$7.00.

## HANSEN'S BUSH CHERRY

White flowers in spring, maroon-red leaves in fall. Tasty fruit is plum-shaped and the size of a sweet cherry. Easy to grow. 18-24 in. plants, 85c each; 2 for \$1.60; 5 for \$3.50.

## ROSE TREE OF CHINA

(*Prunus Triloba*) Beautiful hardy flowering plum, covered with small full double rose-like pink blooms before leaves appear. Grows to height of about six feet. 2-3 ft. trees, each \$1.85; 2 for \$3.50.

## RED FLOWERING QUINCE

(*Japan*) Very early in spring this shrub is covered with bright orange to scarlet flowers, followed by small fragrant quince-shaped fruits. Grows 5 to 7 ft. tall. 18-24 in., 85c each; 2 for \$1.55; 5 for \$2.95.

## FORSYTHIA

Golden Bell. Golden blossoms cover every limb and twig before leaves appear. Grows 8 to 10 ft. tall. Thrives in sun or part shade with ordinary moisture. 2 yr. plants, 85c each; 3 for \$2.40.

## HYDRANGEA P. G.

(*Hills of Snow*) Very hardy and especially good in partial shade. Large clusters of snow white flowers changing to light pink later on. **PRICE:** 2 yr. field grown plants, each 85c; 2 for \$1.60; 5 for \$3.50.

## TAMARIX HISPIDA

Very dense, silvery-blue feathery foliage. Bright pink flowers all summer. 10 to 15 ft. at maturity but can be pruned to desired height. 18-24 in. plants, 85c each; 2 for \$1.50; 5 for \$3.50.

## CALYCANTHUS

(*SWEET SHRUB*) An old garden favorite. Fragrant shrub with chocolate colored flowers and shiny green leaves. Blooms from May until October. 18-24 in. plants, 90c each; 2 for \$1.70; 5 for \$3.95.

## RED SNOWBERRY

Pink flowers in June, followed by red berries in clusters the full length of graceful branches. Does well in sun and shade. Grows to medium height. 18-24 in. plants, each \$1.05; 2 for \$2.00.

# HARDY NUT TREES

Plant Nut Trees For Profit, Beauty  
Shade and Pleasure

## HALL'S HARDY ALMOND

This new improved dual purposed tree is offered to you as an ornamental tree that blooms beautifully and also bears a fine crop of delicious almonds. Hall's Almond is a hardy, rapid growing, young producing nut tree. The trees are Northern grown and can be successfully planted wherever you can grow peaches. The nuts are large and of fine quality. Its blooms are very attractive, foliage is dark green, and is an added attraction to any landscape plan. Best results are always attained by planting 2 trees.

Butternut

Black Walnut

## BLACK WALNUT

These Black Walnuts are grown from seed produced on our own farms and they are excellent. Trees are hardy anywhere in the U.S. and thrive in sunny, well-drained soil. Ideal for shade as they are fast growing and long lived. Nuts are large with full kernels which are crisp and rich in flavor. **PRICES:** 3½-4 ft. trees \$1.10 each; 5 for \$4.95; 25 for \$19.75. Large Size, 4-6 ft. trees \$2.75 each; 2 for \$5.40; 5 for \$12.50. We have a fine supply of Black Walnut and anyone calling for these trees at the nursery can save 35c per tree if we don't have to box them.

Illustrated  
Full Size

## BUTTERNUTS

This native nut tree grows in almost every section of the United States. Attains large size at maturity. Starts to bear very early, about 3 to 5 years of age, and will produce a crop annually. The native Butternut is a conical shaped nut that is very nutritious, carrying a very large amount of oil. Grows easily. Trees make excellent shade and you can plant them in any corner or other sections where ordinary trees cannot be produced, as they require no spraying.

### PRICES:

	Each	2	5
2-3 ft. trees	\$0.95	\$1.80	\$4.25
3-4½ ft. trees	1.30	2.50	5.95

All nut trees are tap-rooted and have very few fibrous roots.

## CHINESE CHESTNUT

The Chinese Chestnut is absolutely blight resistant and is very hardy. It produces nuts that are of fine flavor and they are larger than those produced on the ordinary American type variety trees. They are long lived. We suggest that you plant two or more trees for best results.

**PRICES:** 2-3 ft. branched trees each \$2.15; 2 for \$4.05; 5 for \$9.85; 10 for \$18.65; 3-4 ft. branched trees each \$2.95; 2 for \$5.70; 5 for \$13.75.

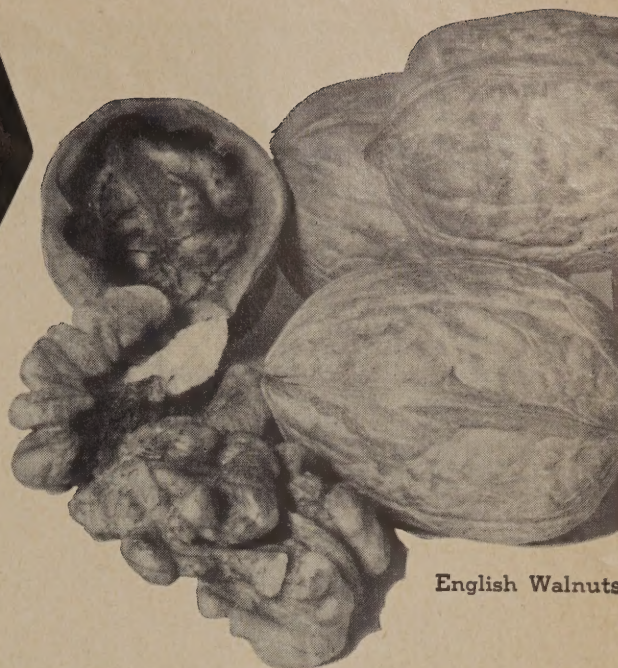

# Hardy ENGLISH WALNUTS

NORTHERN GROWN—THIN SHELL

The hardy English Walnuts which we handle are all direct descendants from the original seed which was sent here from the Carpathian Mountains. Their hardiness, rapidity of growth, their long life and beauty, and finally their timber, makes them very desirable. Besides this, they produce large quantities of edible nuts and add greatly to the value of any property on which they are planted. These trees are not always fertile, therefore we suggest that more than one be planted for cross-pollination and guaranteed success.

The Carpathian English Walnut is of the paper shell type. Very hardy. Produces nuts varying in size from that of the California English Walnut to three times its size: **PRICES:** 2-3 ft. trees, each \$2.95; 2 for \$5.75; 5 for \$13.95. 3-4 ft. trees, each \$3.75; 2 for \$7.25; 5 for \$17.50.

Hardy Pecan

## HARDY PECANS

We have spent a lot of time and effort to secure or locate Pecans which will be suitable for our customers. We have finally secured a source of good seed, and can now offer you a Northern Pecan which is as hardy as any Hickory nut, and should not be confused with the Southern Pecan. These trees grow naturally on overflow lands, but they will grow any place where you have good soil. They are very able to adapt themselves to different conditions. They make a beautiful ornamental tree, growing to a great height in the course of time, and will produce a wonderful crop of nuts if conditions are right. **PRICES:**

18-24 in. trees			
Each	2	5	10
\$1.40	\$2.70	\$6.50	\$12.50
2-3 ft. trees

We recommend to you Farm Journal, America's finest farm magazine and American Fruit Grower, leading fruit growers magazine. They will help you grow better flowers, fruit, vegetables and shrubs. A special introductory order form for customers is enclosed.

## HARDY HAZELNUTS

The Hardy Hazelnuts or American Filberts can be grown in practically any part of the United States, excepting the extreme North. The trees make a rather shrubby growth but they can be trimmed to tree size if desired. Bears very early. In the Fall the leaves turn scarlet and bronze and the bush will be completely covered with bunches of nuts. Always set two or more for best results. **PRICES:** 18-24 in. trees \$1.40 each; 3 for \$3.90; 10 for \$11.95.

## MODERN NEW "HAVEN" PEACH VARIETIES

The ability of the following 2 varieties to stand cold weather and yet produce a crop, makes them especially adapted to sections where peaches cannot ordinarily be grown. In 1950 when virtually all peaches in Mich. suffered permanent frost damage, the Sun Haven and Rich Haven trees came through practically undamaged. Our trees are all budded from buds taken from the original trees and we guarantee them to be true to name. Both varieties are very vigorous and productive.

### *New, Early* **SUNHAVEN**

**RIPENS 10 DAYS BEFORE RED HAVEN**

The Sunhaven is the earliest ripening peach that we list and will add an entirely new trend to peach culture. It is of excellent size and when fully ripened is an absolute freestone. It is bright red with sufficient bright golden color for attractive contrast. For road side stands or for anyone who can capitalize on the earliness of this variety, it should be a wonderful addition to any orchard.

### *Large, Tasty* **RICHHAVEN**

Red Haven is a variety that is completely freestone even when firm ripe and is highly rated in commercial canning tests. It has an unusually thick, tough skin that adds to the handling and shipping ability of the fruit. Rich Haven's color is bright red overlaying a bright golden color. Sun haven and Rich Haven are practically fuzzless and quite probable that neither variety would have to be run through brushes before marketing. Both varieties are large, nearly round, uniform in shape and size and the flesh is clear yellow.

## *New* **DWARF PEACH TREES**

No ladders needed for these trees! Our special understocks produce a tree that never grows big and you can pick most of the fruit from the trees while standing on the ground. Lives a long time and produces fruit exactly like the ordinary peach but can be grown in smaller space. Bears large crops the second year after planting. Is a beautiful ornamental tree when in full bloom.

Varieties: Red Haven, Hale Haven, Red Skin and Elberta: 3-4 ft. trees \$2.85 each; 2 for \$5.50; 4 for \$10.60. We have some Dwarf Goldenette (the Premium Peach), 3-4 ft. trees \$3.10 each; 2 for \$5.95.
